

DLS ENVIRONMENTAL POLICY STATEMENT

Darlow Lloyd & Sons Ltd (DLS) recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all environmental regulations, legislation and approved codes of practice.

It is DLS's objective to operate with, and to maintain good relations with all its customers, relevant regulatory bodies and comply with the requirements of ISO 14001: 2015 standard.

It is the DLS declared policy to carry out all measures reasonably practicable to facilitate the ability to continually improve environmental performance and is committed to the prevention of pollution. To assist in this commitment the company will endeavour as far as reasonably practicable to,

1. Identify environmental issues associated with services provided and regularly assess the environmental effects of the DLS equipment, plant and operations.
2. Adhere to all relevant regulations concerning waste and environmental well-being.
3. Ensure employees have an awareness of environmental issues relating to their working environment.
4. Minimise the production of non-recyclable waste.
5. Minimise energy wastage where ever possible and practical and monitor emerging technologies.
6. Control noise & dust emissions from operations.
7. Minimise risk to the general public and employees from DLS operations and activities.
8. Manage and control all waste/hazardous/unknown materials in a correct and safe manner.
9. Minimise the impact to nature and wildlife.
10. Keep staff aware of the risks from leakages and spills and the protocols for prevention and emergency action.

This policy is communicated to all employees, suppliers and contractors / sub-contractors and is made available to the public.

All personnel should understand their obligations under this policy statement, and abide with the principals and contents of all Environmental requirements in the Company's Integrated Management System.

DLS will regularly monitor and review its environmental performance and this Environmental Policy Statement in order to ensure its continuing suitability, and shall implement improvements when and where ever appropriate.
